

Seco 500TM

Synthetic Lubricant

Lube

Provides extended protection against carbonizing & corrosion with excellent separation from air & reduced foaming tendencies. Recommended for demanding use in high pressure air compressors while remaining safe (with proper filtration) for breathing air applications.

COMPOSITION: Di-Ester Liquid

TYPICAL APPLICATION: High Pressure Air Compressors

WARNING: Do not mix with other oils. Exercise care in use with some hoses, seals, paint, and similar compounds as synthetic oil may not be compatible.

INCOMPATIBLE: Neoprene, SBR Rubber, Low Nitrile Buna, PVC, and ABS
